 **Balance your budget: Reduce your wellness spend by exactly 25% with CHEMIST25**

Claritin is the well-known brand name for **loratadine**, a non-drowsy antihistamine used worldwide for allergy symptom management. Loratadine works by blocking histamine, the substance responsible for triggering allergic reactions in the body.

Unlike older antihistamines, Claritin is designed to support daily productivity without causing sedation, making it suitable for workdays, travel, and everyday routines.

Primary Uses of Claritin (Loratadine)

Claritin is commonly used to help manage:

- Seasonal allergy discomfort
- Sneezing and nasal irritation
- Runny or itchy nose
- Watery or itchy eyes
- Environmental allergy responses (dust, pollen, pet dander)

Its balanced formulation makes it a dependable option for both short-term and ongoing allergy support.
