

# How to Buy Crypto on Trust Wallet: +1 917 383 3978 A Step-by-Step Guide (2025 - 2026 Update)

Trust Wallet is one of the most user-friendly, secure, and decentralized cryptocurrency wallets available today. With millions of users worldwide, it allows seamless interaction with the world of crypto – including buying, selling, and swapping tokens. However, many users still struggle with one key issue: **how to buy crypto on Trust Wallet**.

This detailed, SEO-friendly guide will walk you through **step-by-step instructions**, troubleshoot common issues, and cover **all essential keywords** such as *how to buy crypto Trust Wallet*, *buying coins on Trust Wallet*, and more.

For any help or support, feel free to contact **Trust Wallet customer assistance** at **+1-917-383-3978**.

## 📌 Introduction to Buying Crypto on Trust Wallet

Trust Wallet supports the purchase of numerous cryptocurrencies like **Bitcoin (BTC)**, **Ethereum (ETH)**, **Safemoon**, **Shiba Inu**, **Tron (TRX)**, and many ERC-20, BEP-20, and BEP-2 tokens. You can buy crypto using **Apple Pay**, **credit/debit cards**, or **third-party providers** like **MoonPay**, **Ramp**, and **Simplex**.

If you're wondering "**can I buy crypto in Trust Wallet?**" – the answer is **yes**. Let's walk you through the step-by-step process.

## 📌 Step-by-Step: How to Buy Crypto on Trust Wallet

### Step 1: Download and Set Up Trust Wallet

1.  
Go to the App Store (iOS) or Google Play Store (Android).

- 2.

Search for “Trust Wallet” and install the official app.

3.

Open the app and tap “**Create a New Wallet.**”

4.

Safely back up your **12-word recovery phrase.**

5.

Complete the security prompts and get access to your wallet.

## Step 2: Enable Your Desired Coin

Before buying, ensure your desired crypto is visible in your wallet:

- Tap the **top-right toggle icon.**
- Search for the coin (e.g., Tron, Safemoon, Shiba Inu).
- Toggle it ON.

## Step 3: Tap “Buy” in Trust Wallet

- On the home screen, tap the “**Buy**” button.
- Choose the cryptocurrency you wish to purchase.
- Example: To **buy Safemoon on Trust Wallet**, first buy BNB, then swap for Safemoon.

- Enter the amount you want to buy (in USD or local currency).
- Choose a third-party provider like **MoonPay**, **Ramp**, or **Simplex**.

## Step 4: Verify KYC & Make Payment

- Complete the KYC (identity verification) if prompted.
- Enter your **credit card**, **debit card**, or use **Apple Pay** if supported.
- Wait for the transaction to process.

⚠ If you're facing trouble, such as **Trust Wallet Apple Pay not working** or **credit card issues**, contact support at **+1-917-383-3978** for immediate assistance.

## Step 5: Receive Your Crypto

Once the payment is successful, your crypto will appear in your Trust Wallet after a few minutes (or up to an hour depending on network congestion).

## ⚠ How to Buy Specific Cryptos on Trust Wallet

### ⚠ Buy Safemoon on Trust Wallet

1. Buy BNB through Trust Wallet.
2. Tap **"DApps"** ⚠ Open **PancakeSwap**.

3.  
Swap BNB for Safemoon.
4.  
Add Safemoon manually if it doesn't show (search or paste the contract address).

## ☒ **Buy Shiba Inu on Trust Wallet**

1.  
Buy ETH or BNB in Trust Wallet.
2.  
Use **Uniswap (for ETH)** or **PancakeSwap (for BNB)**.
3.  
Swap the token for SHIB.
4.  
Add Shiba Inu to your list manually.

## ☒ **Buy Tron (TRX) on Trust Wallet**

As of recent updates, TRX is no longer directly purchasable via Trust Wallet. You may need to:

1.  
Buy USDT via Trust Wallet.
2.  
Send USDT to a CEX (like Binance).
3.  
Trade for TRX and send it back to your Trust Wallet.

# ☒ Troubleshooting: Common Problems When Buying Crypto on Trust Wallet

## ☒ Trust Wallet Not Showing Purchased Coins

- Ensure you've enabled the coin in the main wallet list.
- Refresh the app or clear cache.
- Double-check the correct network (e.g., ERC-20 vs BEP-20).

## ☒ Trust Wallet Not Showing Dollar Value

- This happens if Trust Wallet doesn't support market pricing for that coin.
- Use CoinMarketCap or CoinGecko to check the value manually.

## ☒ Trust Wallet Not Showing Balance / Shows Zero

- Could be a sync issue — wait a few minutes.
- Ensure the correct blockchain network is selected.
- Update the app or reinstall if needed.

## ☒ NFTs Not Showing in Trust Wallet

- Make sure you're on the correct network (ETH/BSC).
- Confirm that the wallet supports the NFT type.
- Use the NFT tab in the wallet to check your assets.

## 🔗 Third-Party Providers for Buying Crypto on Trust Wallet

Trust Wallet integrates with:

- **MoonPay**
- **Simplex**
- **Ramp Network**
- **Transak**

Each provider may have:

- Varying fees
- Different supported countries
- Unique KYC requirements

**Tip:** If Simplex is not working on Trust Wallet or you get an error like “transaction declined,” try using another provider or contact support at +1-917-383-3978.

## 🔒 Is It Safe to Buy Crypto on Trust Wallet?

Yes, Trust Wallet is secure — your private keys stay with you. However:

- Always verify third-party links and DApps.
- Only use official support numbers and email.
- Never share your recovery phrase.

## 🔒 FAQs About Buying Crypto on Trust Wallet

### Q1. Can I buy crypto directly in Trust Wallet?

Yes, using providers like MoonPay and Simplex.

### Q2. Why is my crypto not showing up after purchase?

- The transaction might still be pending.
- The coin might be hidden in the wallet list.
- You may be on the wrong blockchain network.

### Q3. Can I buy crypto with a credit card in Trust Wallet?

Yes, via MoonPay, Ramp, or Simplex — subject to their KYC and regional regulations.

### Q4. What's the best crypto to buy on Trust Wallet?

It depends on your investment goals. Popular choices include:

- Bitcoin (BTC)
- Ethereum (ETH)
- BNB
- Shiba Inu
- Safemoon
- Tron (via external exchange)

### 📌 Final Note: Contact Support for Buying Issues

If you're still facing problems such as:

- Buy crypto Trust Wallet not working
- Can't buy Safemoon on Trust Wallet
